

# Rent Minitab 16 for as little as \$29.99/semester!

6-month rental  
\$29.99

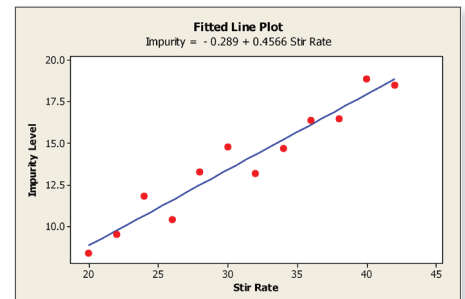

Perpetual use  
\$99.99

## Teaching and Learning Statistics is Easy

Minitab 16 is the leading statistical software used in education worldwide. It contains all the methods you need to teach with a user-friendly design that makes it simple for students to understand statistical concepts and analyze data.

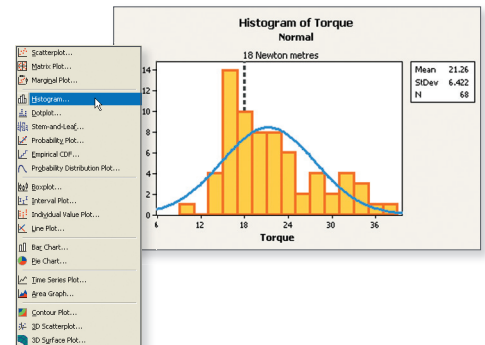

### Powerful Graphics

Easy-to-create graphs help students visualize and analyze data.

### Intuitive Interface

Menus are organized in a way that match the leading textbooks and complement how students learn.

### All-in-One Project Files

Students can save all parts of their analysis in one file, and then open it later to resume their work exactly as they left it.

### Help that is Really Helpful

- An illustrated glossary explaining more than 500 terms
- A StatGuide™ that helps students interpret output
- Forty-five tutorials with instructions and examples
- Meet Minitab - a short introductory guide that makes it easy for students to start using the software quickly
