1. New Features in Minitab Engage June 2025	1
2. Problems Resolved in Minitab Engage June 2025.....	1
3. Known Problems and Workarounds	1

1. New Features in Minitab Engage June 2025

Quick Start projects with workflow

Steering committee members can now start projects immediately, without going through the Idea and Hopper stages.

Engage API to create non-workflow projects

The Engage API now supports creating non-workflow projects as well as workflow ideas.

2. Problems Resolved in Minitab Engage June 2025

The following issues are resolved in Minitab Engage June 2025.

- Email reminders for the Phase Due Date are sent for Paused and Canceled projects. (288287)

3. Known Problems and Workarounds

Item 1

In some cases, using many images in a Rich Text Box may impact application stability. (182323)

WORKAROUND: Distributing images across multiple boxes may help mitigate potential issues.

Item 2

Certain regional settings may affect date selection within the calendar picker. (182136)

WORKAROUND: Manually enter the date to ensure accuracy.

Item 3

Copying form elements while using Remote Desktop may occasionally cause unexpected behavior. (178344)

Item 4

Adding rows in specific areas of a form layout may result in unexpected outcomes. (182384)

Item 5

In some cases, text may be difficult to see when certain fill colors and font settings are applied. (183145)
